WHY IS YOUR DEVICE SAFE & WATERPROOF?

100% QUALITY TESTING: LEAK/FLOW & BATTERY INTEGRITY

Since 1975

atequsa.com

WATERPROOF TESTING WORKFLOW PROCESS

RESEARCH

1. Air→Water Leak Correlation Formula
2. Global Engineering Support
3. Leak Rate Assessment

DESIGN

1. Loaner ATEQ Instruments
2. Cycle Time Assessment
3. Fixture Consulting

MASS PRODUCTION

1. Auto-Calibration for High Accuracy & Reliability
2. 37 Locations for On-site Customer Support
3. High Manufacturing Capabilities

Waterproof @ 1 m

- No leak on < 20 μm hole

Waterproof @ 10 m

- No leak on < 2.8 μm hole

Mass Production leak rate in scm^3/min should be assessed with ATEQ engineers based on part, sealing process, cycle time

Waterproof @ 30 m

- No leak on < 1.5 μm hole
