

# ATEQ CUSTOMER PORTAL

Fast Access to Instrument Information

## QR CODE

All new ATEQ instruments and instruments sent in for repairs/calibrations will now include a unique QR code sticker that can be scanned for access to that specific instrument's data within ATEQ's new customer portal.

## CUSTOMER PORTAL

Taking the QR code's instrument data one step further, ATEQ now offers customers access to their own unique customer portal. This portal will show details about all of the customer's ATEQ instruments along with repair/calibration information and downloads.

Customers can request access to their portal by contacting their sales rep or completing the webform: [atequsa.com/customer-portal-access-request](http://atequsa.com/customer-portal-access-request)

Serial#	ID Number	Instrument
