

CUSTOM SERVICE PLANS

STANDARD | ISO 17025 | ONSITE

REDUCE DOWNTIME | PEACE OF MIND | SAVE MONEY | OPTIMIZE PERFORMANCE

ATEQ introduces our custom worry-free service plans. These plans will save you time and money by keeping your instruments up and running optimally. Purchase a plan with your instrument(s) at a discount upfront so you don't have to budget for future rushed repairs, calibrations or shipping costs.

QUICK REPAIRS

Over time, normal wear and tear on equipment is inevitable. Each service plan includes express service good for sending in unexpected repairs and includes return shipping.

STANDARD/ISO CALIBRATIONS

The readings on every measurement testing instrument drift over time. With your service plan, you can select if you want standard or ISO 17025 calibrations on-site at your facility or at a local Ateq office. You can combine different types of Ateq instruments and the leak orifice in the plan.

PREVENTIVE MAINTENANCE

Included in our service plan is regular analysis of the instruments to make any adjustments needed to ensure they will continue to function optimally.

Preventive Maintenance Includes:

- Valve Rebuilds
- O-Ring Replacements
- Internal Debris Cleaning
- Relubrication
- Performance Testing (Boards, Sensors, Regulators & Valves)
